- Making doctor's appointments
- Help with finding transportation
- Assistance with medications and much more

If you elect to have an at-home PERS, you plug the device into an outlet in your home and then keep the small, lightweight, battery-operated "Help" button around your neck on a lanyard or on your wrist on a wristband.

For an on-the-go system, you wear the "Help" button around your neck on the lanyard or on your wrist with the wristband. This can be worn both in and outside the home. Plug the charging cradle into an outlet and set the "Help" button on top when it needs to be charged.
